Final Report of Bylaws Revision Committee

Date: 14 May 2004

To: NC, USGenWeb Project Advisory Board  
From : Bylaws Revision Committee  
Subject: Committee Final Report.

The Bylaws Revision Committee was established March 10, 2002 by then National Coordinator Holly Timm. Instructions were to study the USGenWeb bylaws to determine which articles or sections needed revision and to: 1) delete unnecessary sections, 2) clarify or strengthen sections, 3) add new articles as deemed necessary. In addition, the committee was prohibited from making major changes in the project structure, such as deciding which of the census project is to be officially recognized or eliminating the archives.

The committee initially considered changes by the consensus building process. Committee members with strongly held convictions regarding their views soon revealed the weakness of the process best described by the following - "To me, consensus seems to be the process of abandoning all beliefs, principles, values and policies. So it is something in which no one believes and to which no one objects. - Margaret Thatcher" The committee began the use preferential voting in a process of selecting from individual proposals resulting in a revision proposal supported by a majority of committee members. Great care was taken during committee proceedings to assure that revisions will promote fairness and equitable treatment for all USGenWeb members. The revision is our best effort to provide for stability and enable growth of the project in future years.

Many USGenWeb members have given of their valuable time and provided their own unique insight to the revision process. To all those who served, a sincere thank you! Phyllis Rippee, Marion McCreadie, Jimmy Epperson, Jeff Scism, Roger Swafford, Kelley Blizzard, Charles Barnum, Dennis Muncrief, Ginger Hayes, Carol Carwile-Head, Elva Morgan, Shari Handley, Noel Matthews, Don Kelly, Gloria B. Status of Project Domains (5-27-04) Earlier this month I posted an informal announcement to the Discuss list that the Advisory Board had been involved with negotiations with Tim Stowell regarding the return of control of two of the project's domains. (I intended to quote the message here, but the RootsWeb list archives are currently down.) Although Mr. Stowell and I had not directly communicated in these negotiations, he replied asking for additional time to fulfill what he had obligated himself to. That extension was granted, but on May 19, 2004, I sent him the following message:

Date: Wed, 19 May 2004 00:26:03 -0700

To: Tim Stowell <tstowell@chattanooga.net>

From: Isaiah Harrison <IsaiahH@cox.net>

Subject: Failure of Negotiations

Cc: Board Exec <Board-Exec-L@rootsweb.com>, "Vickery, Tina" <tsvickery@adelphia.net>

Tim-

Enough time has gone by without tangible results that I can no longer support the agreement that the Advisory Board attempted to conclude with you regarding the return of control of the Project's domains. Individual AB members are certainly welcome to promote some new arrangement and attempt to gather support for it, if they choose.

For a while, when the negotiations led by Phyllis did not come to a positive conclusion, I believed they could be resurrected. I was wrong.

I regret it wasn't possible to resolve the issue through these negotiations. I and the Advisory Board hold that the domains USGenWeb.net and USGenWeb.org are the property of The USGenWeb Project

and that it is your responsibility to transfer control of those domains to the person designated by the Board--Isaiah Harrison, National Coordinator.

Isaiah Harrison  
National Coordinator  
The USGenWeb Project

This afternoon, the USGenWeb.net domain was turned over to me. I have changed the administrative and billing contacts and password, and feel this domain is under complete control of the project.

In the meantime, AB member Richard Howland negotiated with Tim Stowell and is now in control of the USGenWeb.org domain. Unfortunately, Mr. Howland neglected to keep me or the AB informed of the fact of or the nature of his negotiations. What it boils down to is that Richard Howland is now in the position that Tim Stowell was in; he is holding USGenweb property that has been designated by the Advisory Board to be held by the National Coordinator. Additionally, he is preventing the lifting of the MNGS designation imposed on Tim Stowell for not delivering the domains to the project.

It is my hope that Mr. Howland will soon realize that it is not in his interest or in Mr. Stowell's interest or in the interest of the project to stand in the way of the USGenWeb.org domain to be delivered to the project as the AB has designated.

Resignation (5-28-04) National Coordinator Isaiah Harrison posted the following correspondence from SEMA SC Representative Christine Goff:

After much deliberation I have come to decision. I hear by resign from my position as SEMA SC

This decision did not come easy. I need to devote more time the projects I work with. They are just as important as helping to protect those volunteers that are part of them.

I am glad I could help in acquiring the .net domain for you.

I hope that the AB will become an acting unit, full of integrity and honesty. To help restore total faith of all who are part of the USGenWeb project.

I hope I may have helped a little in making this possible. It has been a pleasure and an experience that I can only pray has made me a better and wiser person.

Christine

We cannot be less than honest, we cannot be less than true, we cannot be less than virtuous if we are to keep sacred the trust given us.

Before removing Christine from the Board-L list, I want to take this opportunity to thank her for her contribution to the project and wish her well in her future endeavors.

-Isaiah

I too am appreciative of the efforts that Christine has made for the good of the USGenWeb Project. It was nice working with you Christine.

Respectfully

Darilee

Christine,

Thank you for your efforts on the projects behalf regarding the domains and your willingness to serve on the Advisory Board. I hope you enjoy being able to delve back into your New Jersey project.

Linda Blum-Barton

Same here. Christine did good work for which we are all thankful. I very much regret this resignation.

Don
